

Why we are on strike

We, the workers on strike, are employed in child welfare services, care services, asylum reception centres and non-profit organizations.

We cannot accept that, year after year, NHO offers us significantly lower pay increases than those received by others. Enough is enough. We demand a settlement that delivers a real boost in pay!

We demand:

- 1** A wage to live on
- 2** A pay rise for low-paid workers
- 3** Fair compensation for unsocial working hours

We apologize for the inconvenience this strike may cause service users and the public. We went as far as possible to avoid conflict, but our efforts were not met by the employer.
